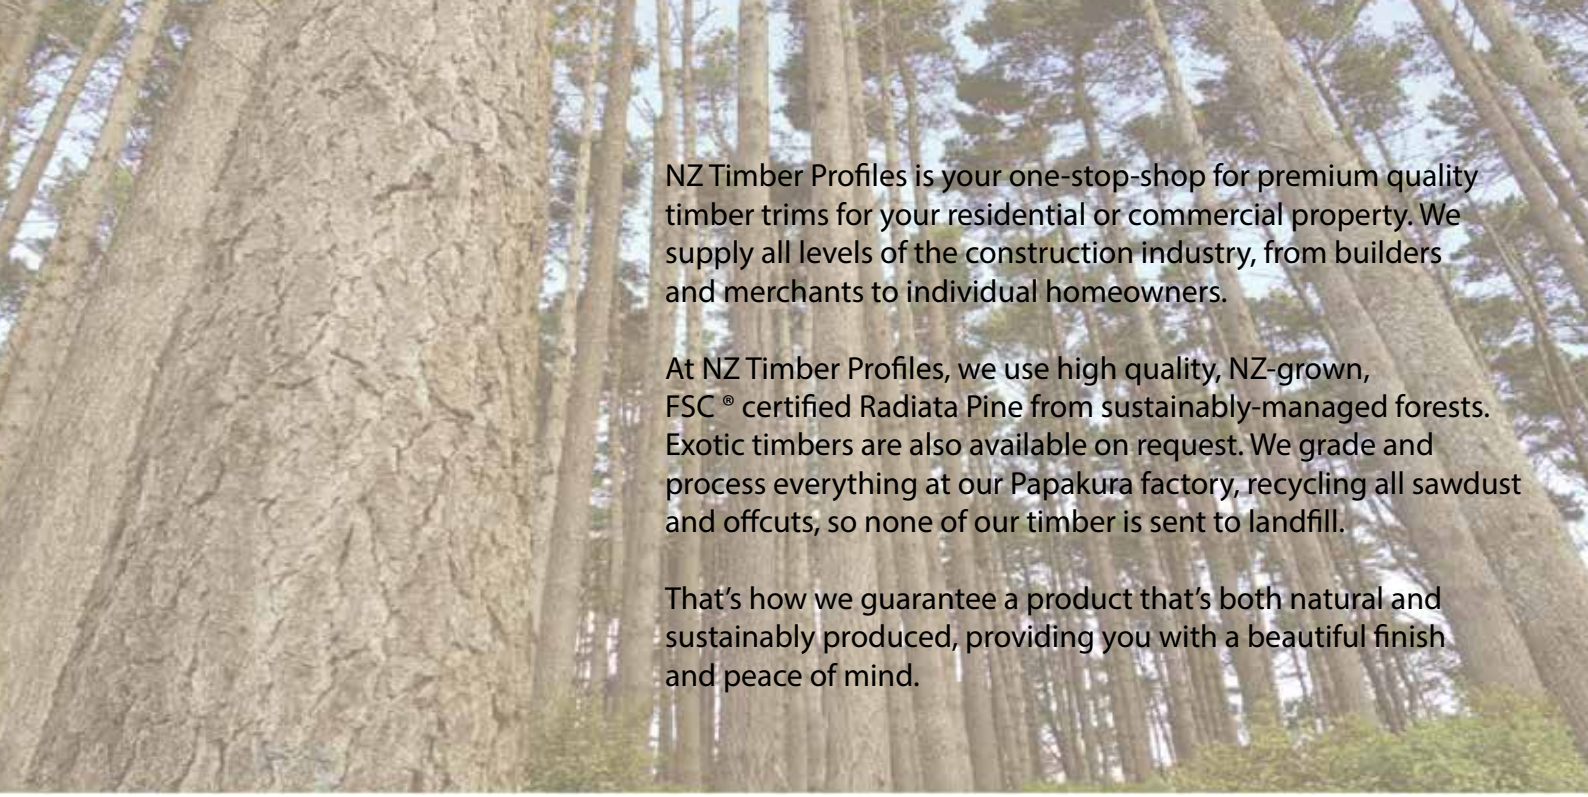
NZ TIMBER PROFILES



NZ Timber Profiles is your one-stop-shop for premium quality timber trims for your residential or commercial property. We supply all levels of the construction industry, from builders and merchants to individual homeowners.

At NZ Timber Profiles, we use high quality, NZ-grown, FSC ® certified Radiata Pine from sustainably-managed forests. Exotic timbers are also available on request. We grade and process everything at our Papakura factory, recycling all sawdust and offcuts, so none of our timber is sent to landfill.

That's how we guarantee a product that's both natural and sustainably produced, providing you with a beautiful finish and peace of mind.

KIWI-OWNED FROM WAY BACK ...

NZ Timber Profiles Ltd started as a division of Papakura Joinery. Founded in 1957, Papakura Joinery built a reputation as the experts in precision timber. We are now a third-generation family company, with a wide portfolio of award-winning builds.

Still based in our original Papakura factory, NZ Timber Profiles Ltd has the added advantage of making our own knives. This means that you can send us a sample or a drawing and we can manufacture the tools right here in NZ to cut exactly what you want.

We take pride in our superior quality and finish. Machining to an accuracy of 0.2mm tolerance, we can supply virtually any specialty shape. Large orders are also no problem, with our factory turning out 35km of timber mouldings every day.

... To any of these!

RETROFIT

SKIRTINGS & ARCHITRAVES

- No demolition required!
- No wall damage!
- No hassle!

The quickest and easiest way to upgrade single bevel or square dressed trims! Simply fit over your existing skirting and architraves and glue or nail into place.
